

NetBook

Business Class NetBook

Knowledge workers can roam free with full PC functionality and access to the web.

What is it?

A mini notebook, weighing in at only 2.6 pounds with the performance to handle your on-the-go computing needs including:

- Web browsing and favorite blogs
- Receive and respond to e-mail and instant messages
- Office productivity software applications

Integrated wireless connectivity and USB port let you easily take your work anywhere, anytime.

Why use it?

Lightweight: Its sleek, ultralight, yet durable design makes traveling easier and saves time during airport check-in and screening.

Performance and features: Loaded with enough computing power and features to make you as productive as you need to be while on the road.

Cost effective: Excellent alternative to heavy, larger devices that cost considerably more.

Green rating: Low power usage makes this an environmentally friendly device.

How is it used?

Use it like a regular notebook, with less than half the weight. No more lugging around 10 pounds of notebook. The integrated wireless capacity gives you the ability to take advantage of WiFi hotspots and networks while you're on the go.

Why ViewSonic?

ViewSonic combines its 20 years of display experience with WinTel technology to deliver a reliable, high-quality mobile computing experience.
