Key **Features**

- Easily Control and Manage Compatible RS232C Displays
- Communicate Urgent Alerts and Multimedia Broadcasts
- Seamless Casting Capabilities
- Create a Complete Collaboration Solution
- Convenient Power-Delivery Through PoE (Power over Ethernet)

Product **Description**

Managing and maintaining different projectors, commercial displays, and interactive flat panels shouldn't be difficult or expensive. The ViewSonic® ViewBoard® VBS200-A Smart AV Controller provides a cost-effective and easy-to-install solution that you can manage on your own without the need for expensive AV consultants or high-end AV control systems. To get started, simply connect the VBS200-A to your RS232C compatible displays from any brand, and sign up for ViewSonic Manager™ software. With this setup, you gain instant access to a centralized dashboard, enabling you to efficiently manage all your compatible displays. You can also upgrade from ViewSonic Manager to Manager Advanced™ software, which will provide premium features such as broadcasting urgent alerts and more. In addition, with Power over Ethernet (PoE) and boasting versatile connectivity options, the VBS200-A provides IT managers with an easy to setup remote management system wherever they are, no matter the time of day.
