

# PJD6210-3D

## VERSATILE, PORTABLE XGA DLP® PROJECTOR

120HZ AND 3D-READY

## Digital clarity in a portable projector.

ViewSonic's PJD6210-3D DLP® projector delivers amazingly clear images with the digital clarity of DLP's BrilliantColor™ technology. It's ideal for use in the office or bring it home for bigger than life home entertainment. With 2,700:1 dynamic contrast, and 2,200 lumens (max) this powerful projector displays crisp text and vivid images. ViewMatch™ technology adjusts colors perfectly so you enjoy rich, vibrant colors regardless of the setting. This projector is a lightweight powerhouse that offers multiple inputs, including support for 720p and 1080i HDTV signals. Eco-mode extends lamp life and reduces fan noise as low as 32dB. Enjoy easy set up with auto source detection and auto sync. When you're done, just unplug it and go. The PJD6210-3D DLP projector delivers excellent performance and value for small business and home entertainment applications.

### VERSATILE PRESENTATIONS ANYWHERE

> **Bright in virtually any setting**

Packs 2200 ANSI lumens in just 2.4 kg, and with a high 2700:1 contrast ratio, your presentations are guaranteed to be vibrant - even with a lot of ambient light.

> **BrilliantColor™ technology**

Latest BrilliantColor™ technology delivers stunning all-digital clarity with life-like color, sharp graphics and outstanding video. The sophisticated 5-segment color (RGBWY) wheel provides greater color accuracy than standard DLP projectors with a 4-segment color wheel.

> **Lowest "Total Cost of Projection"**

Top cover lamp replacement ensures easy and cost-effective maintenance, while prices for replacement lamps are incredibly low. High performance is guaranteed by 3500 hours of lamp life or 4000 hours in eco mode! In addition, filter-less design means there is no need to clean or change filters.

> **Protection and Personalisation**

Assign a PIN code to prevent unauthorised use or theft, and customise your start-up screen to suit your needs.

> **Ease of use**

The PJD6210-3D comes with a suite of electronic features to make the setup process easy. Electronic keystone correction (+/- 40 vertical degrees) maintains a squared image. In addition, this projector's automatic signal detection reduces setup times, while a new button on the remote enables easy toggling between high brightness and brilliant color mode.
