ViewSonic VOT125 PC mini – So mini, so powerful

Placed on the desktop or mounted to the back of a display, this space-saving beauty is a real find. The powerful and energy efficient ViewSonic VOT125 PC mini ULV Series features four different processor options, so you can choose the processing power you need. Standard features include the latest Windows 7 Home Premium operating system, 2GB internal memory and a 160GB hard drive, four USB 2.0 ports, DVI-I and HDMI outputs and a 3-in-1 card reader. Choose from a Single Core SU743 Celeron® (\$499 MSRP), Dual Core SU2300 Celeron (\$529 MSRP), Pentium SU4100 (\$629 MSRP) or Core 2 Duo SU7300 \$679 MSRP) processor. The ViewSonic VOT125 PC mini will be available in March.

VOT125

The VNB105 ViewBook™

The latest generation portable netbook solution for people on the go. The VNB105 10" netbook is equipped with the newest Intel™ N450 Atom® processor, Windows 7 Starter OS, 1GB of internal memory and a 160GB hard drive. A floating keyboard provides for a smooth ergonomic feel, while preventing dust and dirt from falling into the keyboard base. Perfect for those always on the move, this device features integrated 802.11b/g/n wireless, three USB 2.0 ports and a 6 cell battery that goes up to eight hours off a single charge.
