The ViewSonic® CDE3200-L 32" commercial LED display is an ideal choice for hotels, restaurants, and other hospitality environments. This Full HD display has a glossy-finish, slim-bezel design with a glass stand, and comes with versatile HDMI (x3), VGA, Composite, YPbPr and RS-232 connectivity. With optimal brightness, a high contrast ratio, and fast 6.5ms response time, it delivers crisp images and superior color performance. Dual integrated 10W stereo speakers and SPDIF interface deliver quality sound – making this display a complete multimedia entertainment solution. An RS-232 control port with IR pass-through provides automated control for hospitality and commercial installations. IR pass-through offers local control for set-top boxes or other connected devices, directly from the display's remote controller.

**Hospitality Mode for Automated Multi-screen Control**

The CDE3200-L is great for multi-screen setups in hotels, restaurants, sports bars, or retail outlets that require automated control and customizable presets. With a programmable hospitality setting, each television can have the same customized channel default, audio level, front-panel lockout, and auto power-up settings.

**USB Multimedia Playback & Cloning**

With the handy PC-less USB playback feature, photos and music can be immediately played and shared by plugging a USB drive into the display. In addition, the CDE3200-L includes USB cloning for easy duplication in multi-screen environments.

**HDMI CEC Delivers More Viewing Possibilities**

With HDMI CEC functionality, remote controller signals can be transmitted via HDMI cable to connected HDMI devices. This enables out-of-sight DVD players, sound systems, and other devices to be directly controlled with the display's remote controller for a wider range of viewing possibilities.
