Product Description

The 24" VX2479 gaming monitor gives gamers the speed they need to stay one step ahead of the competition. A 240Hz refresh rate and 1ms (MPRT) response time mean fast-action scenes stay sharp and responsive when the pressure is on. AMD FreeSync™ and NVIDIA G-SYNC® Compatibility build on that speed by wiping out tearing and stutter, keeping your focus exactly where it belongs. HDR10 takes it further still, pulling richer contrast and deeper color out of every scene. The frameless 3-sided design makes multi-monitor configurations look as sharp as they perform, with two HDMI ports and one DisplayPort ready for every device in your setup.
