Product Description

The ViewSonic® XG2730 is a 27" WQHD gaming monitor that delivers the perfect mix of silky smooth gameplay, impressive graphic detail, and lightning fast response that enthusiast gamers require when looking for a high-performance gaming monitor. Whether you play MOBA, Third Person Shooter, First Person Shooter, or any other games with detailed graphics that require a quick reaction time, XG2730's WQHD resolution delivers an impressive pixel density that boosts clarity and displays all the graphic intensive detail you need to become immersed in your gaming atmosphere. The monitor comes equipped with a 144Hz refresh rate, FreeSync compatibility and 1ms response time that eliminates screen tearing and stuttering to give you super smooth gameplay, even during fast paced-action, for quick and ultra-responsive movements that keep you a step ahead of your competition. It also comes equipped with a redesigned OSD and Gaming hotkey for quick navigation as well as the ColorX preset for fine-tuned in-game color and performance, giving you more visual adjustability than the average gaming monitor when establishing the optimal conditions to get lost in your gameplay.
