ViewSonic Education Solutions Equips
The Broxbourne School New Build

Summary

ViewSonic collaborated with [Elementary Technology](#), one of its key partner in the United Kingdom, to support [The Broxbourne School](#)'s prestigious new-build project with its latest education solutions.

Setting up classrooms with [ViewBoards interactive displays](#) and [myViewBoard ecosystem](#), ViewSonic's tailor-made solution perfectly integrated with the already existing Google environment and Chromebooks used by students and staffs.

The blend of 72" interactive whiteboards and purpose-developed software made the class easier to prepare and deliver for the teachers while creating more engagement with the lessons' content for the students, preparing them the best way possible to a technology-savvy future.
