

ViewSonic Solutions for Distance Learning

A COMPLETE SOLUTION THAT COMBINES HARDWARE AND SOFTWARE SEAMLESSLY

Challenges

Delivering the same quality of lesson virtually as you would in a traditional classroom can be a major hurdle. Meanwhile keeping up classroom enthusiasm, participation, collaboration, and feedback can all be an even greater challenge, especially in a virtual space.

With new technologies to learn and more distractions than ever before. Plus bulky or immobile devices and material are not always digitally accessible. It is easy to see how lost engagement, low attendance, or poor connectivity have become an issue when navigating this new virtual space.

myViewBoard®

ViewSonic® ViewBoard®

Solution

myViewBoard and ViewSonic ViewBoards

ViewSonic offers major solutions when tackling the problems of engaging students and improving outcomes regardless of location. From broadcasting live, to video conferencing, to myViewBoard, we help connect teachers and students wherever they are.

Broadcasting live while simultaneously screen sharing or conference calling are new and intriguing ways for teachers to reach students and is fast becoming a necessary tool in the virtual space. In addition, myViewBoard offers features optimized for distance learning that offers additional features like digital whiteboarding, lesson recording, push-to-talk, one-way video, and two-way audio conferencing.

This software in combination with ViewSonic's ViewBoard can really bring a traditional lesson to life. With hardware like touch monitors that offer teachers portability and flexibility it becomes second nature to use pair the two together giving you a powerful tool when confronting the virtual classroom.
