

ViewSonic Solutions to Engage Students **HOLDING STUDENTS' ATTENTION WITH MEDIA-RICH LESSONS**

Challenges

Educators all around the world understand just how difficult it can be to keep the attention of students. With the attention span of younger learners hovering at just around 4 minutes, it is easy to see why.

Although continuous activity-based learning can prove fruitful when engaging a class, it is hard to maintain. Managing a room full of unfocused students can prove an exhausting task. Despite the importance of maintaining student engagement, it remains a consistent challenge across all age groups and subjects.

ViewSonic® ViewBoard®

myViewBoard®

Solution

ViewSonic ViewBoard® and myViewBoard®

With ViewBoards and myViewBoard, teachers now have tools that assist them in capturing the imagination and attention of their students.

A ViewBoard gives teachers the ability to write and annotate directly on lesson materials and allows students to directly engage in classroom activities. This helps keep students focused and interested.

At the same time, the interactivity of ViewBoard and myViewBoard gives teachers the power to quickly transform what would have been a traditional and unexciting worksheet into an engaging E-handout or group assignment. Through group work and media-rich teaching materials, ViewSonic's hardware/software solution approach both engages students and maintains interest.
