

VPC191

Key Features

DISCONTINUED 18.5" L AIO PC

Product Description

*** This product has been replaced by [VPC221B](#).**

The ViewSonic® VPC191 All-in-One PC is the perfect solution saving energy and saving space, yet is powerful enough to accomplish your most common PC tasks. The Atom D525 processor combined with the low power LED panel will save up to 60% energy cost savings over traditional PC's and provide fantastic TCO. Four high speed USB 2.0 ports provide great connectivity to multiple peripherals. The VPC191 has both LAN and wireless capability - just right for surfing the web or connecting to the corporate network. The integrated slot-in DVD/RW gives you desktop entertainment for all your DVDs. The VPC191 is truly a smarter, greener PC solution.
