

E-BOX MOBILE TILT AND TABLE STAND WITH POWERPACK AND 8" XL WHEELS | VB-EBP-002

Key Features

- **OPTIMIZED FOR ATHLETIC PROGRAMS:** This mobile stand can help move a connected interactive display from a standard vertical view for reviewing team film to a flat tabletop surface for strategy and play design.
- **TRANSITIONS TO TABLETOP COLLABORATION:** Smooth motorized adjustment shifts the display up to 90 degrees into a flat tabletop layout for collaborative sessions.
- **ALL-SURFACE MOBILITY:** Rugged 8-inch XL wheels deliver heavy-duty mobility across diverse floor types between rooms or facilities.
- **RUN PRESENTATIONS WITHOUT OUTLETS:** The onboard PowerPack with LiFePO4 battery provides up to three hours of cordless runtime to present anywhere unplugged.
- **UNIVERSAL HARDWARE INTEGRATION:** Accommodates standard interactive displays with VESA patterns up to 600x400mm to ensure seamless setup across the organization.

Product Description

The ViewSonic VB-EBP-002 is a mobile tilt and table stand that helps interactive displays move freely between rooms, run on battery power and shift into tabletop mode for hands-on collaboration (compatible interactive displays are sold separately). A smooth motorized lift raises, lowers and tilts the display up to 90 degrees, shifting from a vertical screen for game film to a flat tabletop surface for diagramming plays or group collaboration. With an integrated portable PowerPack delivering up to three hours of cordless runtime, there's no need to locate a wall outlet before rolling the stand into position. Rugged 8-inch XL wheels glide across any floor type between rooms or facilities. The VB-EBP-002 arrives fully assembled and ready to go, so teams can get started immediately.

Note: Tabletop mode is intended for active collaborative sessions and should not be used as a permanent display orientation. When not in use, store the panel in an upright position. [Read more here.](#)

Specifications

More Information	
UPC	766907044843
VESA Compatible	600 x 400 mm
Weight Capacity	220lbs
Battery Chemistry	Lithium
Physical (in.)	31.6" x 29" x 32.2"

Net (lbs)	182
