

VMS700B

Key Features

DISCONTINUED

Product Description

ViewSonic® VMS700 MultiClient™ Server comes with a clean minimalist design, yet includes all the power you need to host a cloud computing environment and manage up to 14 clients. It is easy to set up and configure as a single server or tie multiple servers together for larger network requirements.

- Secure, scalable and future proofed implementation
- Genuine Intel® CPU powers your private cloud
- Fully configurable server in tower form factor
- Dual video outputs include VGA and digital DVI
- Dual RJ45 Gigabit Ethernet for up/down stream
- Integrated Super-Multi DVD-RW optical drive (**optional**)
- Features twelve USB ports (front x4 / rear x8)
