DIRECT VIEW LED

- Huge 135”, 163” and 216” screen sizes are easy to install and come pre-calibrated for uniform and dazzling colors.
- These displays deliver a cost-effective, all-in-one video wall solution.
- With the ViewSonic embedded Signage Platform (VESP), there is no need for any external devices to communicate with the server or play digital media. Photo and video files can be played back using the embedded media player and internal memory.
- Multiple pre-calibrated panels eliminate the need for a complicated setup process. Installation requires two people and can be done within 2 hours, saving time and labor cost.
- With 120% coverage of the Rec. 709 color space, high brightness and a greater contrast ratio, these displays deliver jaw-dropping, lifelike color and stunning video.
