

GIVE YOUR PLAYERS THE HOME COURT ADVANTAGE

Esports Arena

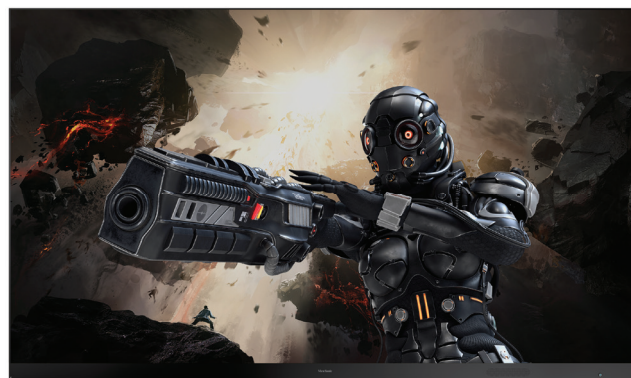

Bring community members, fans and students together with an esports arena.

Although esports arenas are most commonly used as a competition space, it can also function as a larger esports lab where students can come to learn about various hardware concepts, broadcasting and career options in gaming.

Whether it's for competitions, large events or panel discussions, esports arenas are a fantastic way for schools to raise revenue, increase media attention and foster school spirit.

Put state-of-the-art professional color monitors like the ViewSonic® 34" VP341a curved monitor on the broadcast station, load up the tournament stage with unbelievably fast XG251G gaming monitors and give audiences what they want with a massive 216" ViewSonic® LD216-251 Direct View LED display.

Because with ViewSonic, running an esports arena means putting your absolute best on display.

DirectView LED 108", 135", 163", 216"

LD108-121, LD135-151, LD163-181, LD216-251
