PUT VICTORY ON THE CURRICULUM

Gaming Room

Gaming rooms utilize converted or existing classrooms to serve as a space for esports teams and clubs to receive coaching, practice or engage in free play.

With state-of-the-art gaming monitors and large format displays, ViewSonic gaming room solutions are designed to help students improve as players whether they're competing in tournaments, practicing for the next match or just playing for fun.

Build a better gaming room with 4K projectors like the PX748-4K, create a more comprehensive platform for coaching with the ViewSonic® 32" curved VX3268-PC-MHD and put games up on the big screen with the 86" ViewBoard® IFP8650 interactive display.

Build a better gaming room and give your players room to grow with ViewSonic.
