

MAKE CLASSROOM PRESENTATIONS MORE ENGAGING

Podium Solutions and Direct View LED Displays

Whether you're presenting in an auditorium or lecture hall, ViewSonic podium and display solutions take audience engagement to the next level. Pair a myPodium® ID2456-4K interactive pen display with any of our All-in-One Direct View LED displays to showcase lessons and presentations on the big screen. From the interactive pen display, speakers can enjoy full control over their presentations while creating a stronger connection with their audience.

MYPODIUM® ID2456-4K INTERACTIVE PEN DISPLAY

The myPodium® ID2456-4K interactive pen display gives presenters complete, hands-on control over lessons and lectures while enabling them to stay face-to-face with students and attendees.

- 4K UHD (3840 x 2160) resolution delivers sharp, detailed visuals
- 10-point PCAP touch ensures fast, accurate response with intuitive multi-touch gestures
- USB-C with up to 98W power delivery and HDMI out provide streamlined plug-and-play connectivity
- Microsoft Pen Protocol 2.0 support ensures precise active pen input

ALL-IN-ONE DIRECT VIEW LED DISPLAYS

ViewSonic All-in-One Direct View LED displays include everything needed to create brilliant, high-impact visuals that students can see clearly, no matter where they're seated. The ViewSonic LDM, LDP and LDS series are ideal for traditional lecture halls, common areas, and dedicated event venues.

- All-in-One design includes everything needed for complete installation: cabinets, LED tiles, controller, mounts, power supply, and cabling
- 136", 163", 217", and 231" sizes for fixed installations
- 138" mobile, foldable video wall with flight case, cart, and wheels for easy transport across campus
- Full HD 1080p resolution with 600-nit brightness (LDM, LDS)
- 4K (3840 x 2160) resolution with 1,000-nit brightness (LDP)
- Pixel pitch options: .7 mm, .9 mm, 1.2 mm, 1.5 mm, 1.8 mm, and 2.5 mm
- Glue-on-Board (GOB) technology for durability and protection under heavy use (LDM, LDS)
- Chip-on-Board (COB) technology for stunning resolution, durability and protection under heavy use (LDP)
