

# LOBBIES AND PUBLIC AREAS

Re-entering the workspace presents a unique journey for each company. Let the ViewSonic® Envision solution guide you along your own path. **With ViewSonic Envision, we'll consult with your team, work with your preferred integrators, and craft a custom-tailored solution that is right for your needs and budget.**

From warm receptions in the lobby, to wayfinding in hallways, and productivity-boosting workstations for reception, our complete line of visual solutions allow you to reach employees and guests alike.

**DIGITAL SIGNAGE:** Grab attention and greet guests with large display walls. Quickly and easily broadcast content ranging from welcome messages, company information, product videos and more.

**WAYFINDING:** Help guests navigate their way around your office with our line of intuitive and easy-to-use digital ePoster kiosks ideal for use as directories and campus maps.

**SELF-SERVICE KIOSKS:** Our line of touch displays deliver an easy way for visitors to check-in to your building on their own. Options for desktop touch displays as well as podium solutions deliver versatility for your specific needs. ViewSonic also offers touchless, motion-censored customizations for your displays or hand sanitizer kiosks so guests can quickly sanitize their hands.

**RECEPTION DESKS:** Our line productivity-boosting monitors deliver audio, video, and power delivery over a single USB-C cable, allowing you to quickly and easily create a more streamlined and efficient workspace.

**LARGE VENUE PROJECTION:** Bright and versatile for any professional installation, ViewSonic ProAV projection solutions deliver everything you need for big screens in big venues.
