

Executive decisions require executive vision. With sleek curved screens and up to 6.1 million pixels at your command, **ViewSonic VP81 monitors let you see the big picture**. For the most demanding of managers and executives, these curved monitors deliver it all.

**Beautiful Design:** A sleek and frameless curved screen looks great on your desktop, while giving you the freedom to focus on your work.

**Expansive Size:** An ultra-wide 21:9 aspect ratio, and stunning WQHD+ resolution, let you see more and do more on a single monitor.

**Streamlined Desktop:** A single large screen instead of a dual-monitor setup delivers a more organized workspace with less cable clutter.

**Amazing Colors:** Colors are reproduced with utmost accuracy so your presentations match your creativity and executive vision.

# Finally, an oversized monitor to match your oversized workload.

ViewSonic ultra-wide screen monitors not only deliver on size, but they're packed with features to help you work smarter, faster, and more efficiently.

### Single-cable Integration

A USB Type-C port delivers fast data, audio, video and quick charging over a single cable. That means you can plug in your laptop and charge up for your next meeting.

#### **Custom Work Environment**

Included ViewSplit<sup>™</sup> software allows you to create an ideal and customized working environment on your ViewSonic screen. Just choose from a selection of pre-defined templates, or create your own customized layout, and ViewSplit<sup>™</sup> will divide your screen into multiple viewing windows for streamlined multitasking.

## Easy on the Eyes

A gentle curved screen keeps every corner in focus, while Flicker-Free technology and a Blue Light Filter help to reduce eyestrain from extended viewing periods. A built-in ambient light sensor helps to adjust screen brightness based on your surroundings.

# **Designed for Productivity**
