

ALL-IN-ONE VIDEO WALL SOLUTIONS

Direct View LED Displays

Want to add big-screen innovation to your campus? ViewSonic® Direct View LED (dvLED) displays offer a powerful video wall solution. With huge sizes ranging from 108" to 231", they can make an impact in large school spaces like auditoriums, gyms, theaters, and multi-purpose rooms. You can choose from pre-configured, configurable, or even mobile video walls to fit your school's budget and needs.

Our all-in-one design makes installation easy, while our US-based inventory means you get products fast and your room won't be down for more than a day. Plus, because our products connect with RS-232 and LAN control, they easily integrate with the control systems you already use. ViewSonic dvLED displays integrate into the Q-SYS Ecosystem via a Q-SYS library verified plugin. They are also fully compatible with Crestron, Extron and AMX.

Complete All-in-One Direct View LED Portfolio

LDS Series

This foldable screen rolls on wheels, so you can take it wherever it's needed with no installation required. It's perfect for assemblies, donor events, or special events in the auditorium.

- 138" mobile and foldable display
- Pre-assembled with setup in less than 10 minutes
- Includes durable flight case for transport and storage
- IP54 and IK06 protection rating with durable Glue-On-Board (GOB) technology

LDE Series

Pre-configured, cost-effective 1080p video wall solutions with integrated power and processing, Glue-on-Board (GOB) technology, and 24/7 reliability.

- Sizes: 108", 136", 163"
- 1.2, 1.5 and 1.8 mm pixel pitches
- 600-nit brightness, 6,500:1 contrast ratio
- IP54 and IK06 protection rating with durable Glue-On-Board (GOB) technology
- Simplified OS (with no pre-installed apps or the ability to install apps) streamlines setup and operation

LDM Series

Step up to the LDM Series when you need flexibility and smart functionality without relying on extra hardware. It's the ideal choice for teams who value built-in collaboration and easy network management. Plus, it's perfect if aesthetics are a top priority since it features a detachable control bar that you can hide for a clean, bezel-free look.

- Sizes: 136", 163", 231"
- Detachable system control bar
- IP54 and IK06 protection rating with durable Glue-On-Board (GOB) technology
- Picture-by-Picture (up to 4 sources) and Picture-in-Picture capabilities

LDP Series

Stunning 4K UHD brings lessons, student work, and school events to life. These high-performance displays offer the ultimate all-in-one experience.

- Sizes: 136", 163", 217"
- Stunning 4K UHD resolution
- IP54 and IK08 protection rating with advanced Chip-on-Board (COB) technology
- Detachable system control bar

LDC Series

Configurable video wall solutions with custom resolutions and non-standard aspect ratios. These displays make a statement wherever your school needs it.

- Highly configurable sizes and aspect ratios
- Options include 1.2, 1.5, 1.8, and 2.5 mm pixel pitches
- Seamless, bezel-free video walls
- IP54 and IK06 protection rating with durable Glue-On-Board (GOB) technology
