

ViewSonic® K-12 Education Solutions

Transforming Schools Into
Immersive Learning Environments

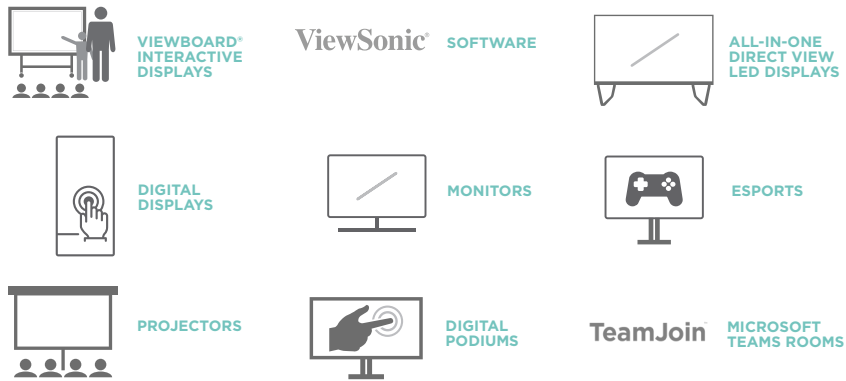

LOOKBOOK

As a leading edtech company, ViewSonic transforms school campuses into immersive learning environments.

Our education solutions drive engagement, enhance instruction, and help students develop skills for lifelong success.

Our solutions portfolio includes ViewBoard® interactive displays, the ViewSonic® education software, large format non-touch classroom digital displays, projectors, and monitors specially designed for esports. Plus, our Manager™ Advanced software ties all our display solutions together by delivering easy device management from a centralized dashboard.

ViewBoard® Interactive Displays

With ViewBoard interactive displays, ViewSonic® education software, and optional slot-in PCs, we deliver a complete turnkey solution for agile collaboration spaces – all you need to add are the tables and chairs.

- Responsive touchscreen ideal for ideation and collaboration
- Built-in access to Google Play, Google Workspace, and familiar classroom apps on EDLA certified panels
- IFPG1 series features OS-less design for enhanced security
- Integrated screen casting encourages content sharing
- ViewSonic Manager™ and vController™ software provide a simple and intuitive interface for remote management
- Native integration with ViewSonic education software enables teachers to present, students to collaborate, and IT teams to manage all products across the ViewSonic ecosystem
- Select models include ultrawide 21:9 aspect ratio

IDEAL FOR:

- **Collaboration spaces**
- **Libraries**
- **Classrooms**
- **Esports broadcasting, fan viewing, coaching**

ViewSonic Education Software

ViewSonic® education software is your visual learning platform. Purpose-built to connect, engage and inspire through a comprehensive suite of apps, it empowers educators and professionals like you to work, teach and learn in your own way.

myViewBoard: Digital whiteboarding with an infinite canvas. Empowers teachers to easily create dynamic, multimedia-rich lessons that can evolve in line with the classroom's comprehension

Manager: A cloud-based management solution that empowers IT administrators to remotely control devices, manage apps, push out broadcasts, collect analytics, and more within the ViewSonic ecosystem. Manager lets IT administrators seamlessly monitor and maintain individual displays across large organizations from a single control panel

AirSync™: This wireless casting software allows you to wirelessly mirror your screen from any device to a larger display using our secure app or your web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast, making it easy to share content quickly and securely

ClassSwift™: Helps teachers to create dynamic, real-time lessons using any format, gain instant insights into student comprehension, reduce prep time and maximize learning

Interactive Teaching & Personalized Learning

ViewSonic® myViewBoard® 3.0 Software

Officially recognized with the ISTE Seal, this award-winning software empowers educators to build dynamic, engaging lessons without the hassle. Streamlined tools, smarter workflows, and seamless content integration help maximize instructional time, boost student participation, and support diverse learning needs. It's everything you need to teach more effectively—all in one intuitive, powerful platform.

- **Intuitive Design:** Redesigned UI/UX for a cleaner, more streamlined experience across Windows, macOS, ChromeOS, and Android.
- **Expanded File Support:** Open and import files from PPT, PDF, Google Slides, .iwb, .flipchart, and more. You can also open multiple files at once with new tab functionality for smoother multitasking.
- **Inclusivity Tools:** Enhanced features like Irlen Filters, text-to-speech, and multilingual support to ensure equitable learning for all students.
- **Enhanced Participant Mode:** Seamless switching between full-screen and canvas modes with student progress tracking. Teachers can also upload backgrounds.
- **Customizable Pen Tools:** Quickly select colors, adjust size and transparency settings, and access favorite tools with a long-press function.

IDEAL FOR:

- Lecture halls
- Labs
- Classrooms
- Conference rooms

ViewSonic Manager™ Software

ViewSonic Manager™ is our FREE software option included with every ViewBoard interactive display, as well as ViewSonic non-interactive commercial displays. It's an easy-to-use and robust web-based application that helps IT seamlessly monitor and maintain individual displays across an entire school from a single control panel.

- Send critical alerts to devices using ViewSonic and third-party integrations
- Manage devices remotely from any web browser
- Quickly enroll devices using PINs, serial numbers, or QR codes
- Monitor and control devices 24/7 from a central dashboard
- Install and remove apps remotely

ViewSonic Manager™ Advanced is our UPGRADED subscription software with enhanced management and automation features.

- Display images, videos, and messages across multiple devices simultaneously for digital signage or classroom announcements
- Automate device management tasks, including power on/off, content scheduling, and more to optimize efficiency and device lifespan
- Assign specific roles and access levels for different users to control device management and content distribution
- Provide IT support remotely through a centralized dashboard to reduce downtime and improve efficiency

IDEAL FOR:

- **District and school IT teams**

Display Device Management

ViewSonic® AirSync™ Software

This wireless casting software allows you to wirelessly mirror your screen from any device to one or multiple larger displays using our secure app or your web browser. AirSync also supports built-in casting like Miracast, Airplay, and Google Cast, making it easy to share content quickly and securely.

- With touchback control, you can project lessons from your ViewSonic display to your tablet or laptop, enabling you to interact with students around the classroom
- Maintain complete control by approving up to six students from a virtual waiting room for a split-screen display
- Keep the entire class on the same page by bringing up multiple devices side-by-side—laptops, tablets, or phones—in a single view on the main display
- Display classroom content on up to 10 networked screens, providing clear views for all students even in larger rooms
- Students can take the stage using any compatible device they bring to class, whether it's a MacBook, iPad, Windows laptop, or Android tablet

IDEAL FOR:

- **Classrooms**

ViewSonic ClassSwift™ Software

ViewSonic ClassSwift™ software is a powerful tool that helps teachers create dynamic, real-time lessons using any format, gain instant insights into student comprehension, reduce prep time and maximize learning.

- Instantly assess comprehension by using real-time interactive tools such as quizzes, true or false options, audio and sketch features, and more
- Tailor lessons based on individual student needs with comprehensive performance reports
- Spark excitement with gamified elements, point rewards, and dynamic timers
- A central dashboard allows users to view individual class reports such as attendance lists, assignment distribution records, assessment results, authentic student work, student progress and more

IDEAL FOR:

- **Classrooms**

Interactive Teaching & Personalized Learning

ViewSonic® TeamOne™ Software

Imagine classrooms where in-person and remote students can collaborate seamlessly, ideas flow freely, and learning is truly interactive. With ViewSonic TeamOne software, it's possible.

ViewSonic TeamOne delivers an infinite digital whiteboarding canvas for secure, scalable, real-time collaboration and ideation among students and educators.

- Collaborate seamlessly across devices and locations
- Visualize and track your classroom ideas from start to finish with advanced whiteboarding
- Streamline communication and collaboration with Microsoft Teams integration
- AI summarization feature consolidates ideas left from brainstorming sessions
- Handwriting recognition feature converts handwriting into text or flowcharts
- Gather class consensus with voting feature

IDEAL FOR:

- Classrooms
- Meeting spaces
- Conference rooms
- Huddle spaces

Real-Time Collaboration

All-In-One Direct View LED Displays

With a range of sizes, these displays make a sizable impression in any multipurpose room, student center or auditorium, boasting seamless video wall images in Full HD and 4K resolutions.

- All-in-one design streamlines installation with included power supply, control, image stitching, and display systems
- Available in mobile, pre-configured, and configurable options
- Options with Glue-on-Board (GOB) or Chip-on-Board (COB) technologies deliver exceptional durability. With IP54 ratings and up to IK08 impact resistance, these displays withstand daily wear, ensuring superior protection against bumps, dust, and moisture for any application
- With 120% Rec. 709 color accuracy, an ultra-fast up to 3,840Hz refresh rate, high brightness and a greater contrast ratio, these displays deliver jaw-dropping, lifelike color and stunning images
- The ViewSonic® LDS Direct View LED Mobile Display is a perfect solution for multipurpose rooms and auditoriums thanks to an included flight case, mobile cart and convenient foldable 138" screen

IDEAL FOR:

- Lobbies
- Reception areas
- Student centers
- Auditoriums
- Esports arenas
- Multipurpose rooms

TeamJoin™ Solutions Certified for Microsoft Teams Rooms

Start your meetings with a single touch thanks to ViewSonic® TeamJoin™ solutions certified for Microsoft Teams Rooms. Designed to deliver instant and intuitive collaboration without a complicated setup process, our Microsoft Teams Rooms certified solutions help to enhance communication, foster collaboration, and promote inclusivity. They're perfect for communicating with diverse teams across schools, hybrid learning for remote students, and video conferencing with colleagues, regardless of their locations.

- One-touch video conferencing collaboration
- Total solutions for all room sizes: Options include a compute engine, touch console, 4K video bar, 4K PTZ camera, speakerphone, and microphone for flexible deployment
- One-stop solution that can easily scale based on your needs and meeting space size
- Provides optimized setup, enhanced security, crisp audio and crystal-clear video performance
- Intuitive controls let users start meetings instantly

IDEAL FOR:

- District offices
- Virtual classrooms
- Video conferencing with parents

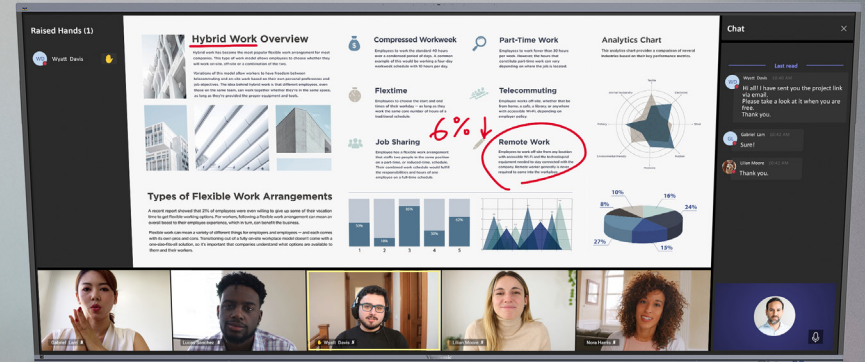

Available accessories:

- **MPC51WT** Intel Core i5 computing engine
- **MPC310-W31-TU** Intel Core i3 computing engine
- **MRC111T** 11.6" touch console
- **MRC1010-TN** 10.1" touch console
- **UMC211T** 4K PTZ camera
- **UMB202** 4K video bar system
- **UMS301T** PoE speakerphone

Available solutions:

- **TRS50:** includes i5 computing engine and 11.6" touch console
- **TRS50-UC:** includes i5 computing engine, 11.6" touch console, and 4K PTZ camera
- **TRS10:** includes i3 computing engine and 10.1" touch console
- **TRS10-UB:** includes i3 computing engine, 10.1" touch console, and 4K video bar system

ViewShare™ Wireless Presentation System

The ViewSonic® ViewShare™ WPD-900 and WPD-900E are plug-and-play wireless presentation systems built for education spaces. They deliver secure peer-to-peer screen sharing without needing school or campus Wi-Fi. Simply plug in to start presenting instantly.

Choose the model that fits your environment. WPD-900 enables open collaboration with AirPlay and Miracast available by default. WPD-900E supports AirPlay and Miracast but keeps them disabled by default to prevent unexpected screen takeovers.

- Connect and present in seconds. No software, no drivers, and no setup required
- Peer-to-peer connection avoids network congestion and keeps data secure
- WPD-900 supports AirPlay and Miracast by default for flexible sharing
- WPD-900E disables AirPlay and Miracast by default for more teacher control
- Protect classroom and campus data with AES 128-bit encryption during every session
- Works with Windows, macOS, iOS, Android, and ChromeOS devices
- Full HD wireless sharing with up to 60W USB-C power delivery for uninterrupted sessions

IDEAL FOR:

- Classrooms
- Huddle spaces
- Library study rooms

Up to 98'

High-Brightness Lamp-Free Projectors

Bring lessons to life in classrooms of any size with our high-brightness lamp-free projectors.

- Up to 6,000 ANSI lumens
- High-brightness projectors fit any type of room
- Next-generation laser phosphor and LED light sources for virtually maintenance-free usage
- No lamps and filters means lower Total Cost of Ownership (TCO)
- Instant on/off functionality for faster meetings
- Flexible installation with horizontal and vertical lens shift
- 360-degree and portrait projection
- Project images up to 300" in size with ultra-short throw projectors placed closer to the screen
- Up to 5-year limited warranty, parts and labor*

IDEAL FOR:

- Auditoriums
- Classrooms
- Multipurpose rooms
- Gaming rooms and labs

Esports Solutions

Our monitors, large format commercial displays and ViewBoard interactive displays are ideal for game prep, strategizing, training and coaching. All-in-One Direct View LED displays and high refresh rate projectors deliver immersive images that will boost school spirit in esports arenas.

- The 25" XG2536 gaming monitor is the perfect size for keeping all the action in your peripheral vision, while the 27" XG2736-2K offers versatile high-resolution gaming for any genre
- Experience fluid gaming and lightning-fast responses via AMD FreeSync™ and NVIDIA G-SYNC™ technologies
- Flexible connectivity options include HDMI, DisplayPort, USB-C and more
- Ergonomic stands on select models deliver the adjustability and comfort needed for marathon gaming sessions
- Projectors and large format displays can be used for audience gameplay viewing
- ViewBoard® interactive displays can be used for coaching and training
- Transform any room into an esports lab with our portable monitors, featuring desktop-level power in sleek, ultra-mobile, and cart-ready designs

IDEAL FOR:

- Gaming lounges
- Student centers
- Quads/common areas
- Computer media labs
- Gymnasiums/stadiums
- Broadcasting and shoutcasting areas

- VX1754 and VX1654 portable gaming monitors
- LS831WU LED projector
- All-in-One Direct View LED displays
- CDE series commercial displays
- ViewBoard® interactive displays

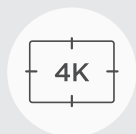

Desktop Displays for Computer Labs

Ideal for aspiring artists, designers, creatives and more, ColorPro monitors deliver extended screen real estate and incredible color accuracy for a streamlined workflow.

- Resolutions up to 5K UHD deliver fine detail ideal for CAD/CAM work
- Ultrawide 21:9 aspect ratio on select models for more screen space and editing in long timelines
- Work in any color space: select models include support for Adobe RGB, DCI-P3 and sRGB
- Factory calibrated for color accuracy and uniformity – perfect for the arts, graphic design and video editing
- Future-proof USB-C or Thunderbolt 4 connectivity and charging up to 100W

IDEAL FOR:

- Engineering and design school departments
- Art and film departments
- Music production
- AV clubs

Desktop Displays for Teachers and Staff

Advanced ergonomic features, flexible display configurations, and future-proof connectivity options make ViewSonic® VG series monitors incredibly adaptable, while easy deployment and eco-friendly packaging help to lower your school's total cost of ownership.

- HDMI, DisplayPort, and USB hubs offer plug-and-play connectivity for Chromebooks, PCs, and laptops
- USB-C connectivity provides power, data, video, and audio capabilities over a single cable
- Our docking monitors feature USB-C single-cable connectivity, RJ45 wired Ethernet connection and a USB hub for accessories, eliminating the need for expensive docking stations
- Advanced ergonomics include swivel, pivot, height adjustment and tilt
- Ideal for schools that would like to mount their monitors, or already have mounting arms, we offer head-only SKUs that feature two monitor heads without stands

IDEAL FOR:

- Admin offices
- Classroom stations
- Computer labs
