Made for Mobile Entertainment

ViewPad® 10e is designed to provide high-performance mobile entertainment in an ultra-slim and lightweight package, perfect for the on-the-go lifestyle. The large 9.7" screen with extra wide viewing angle is optimized for multimedia, e-books, web surfing and games. The super portable design was made to go anywhere you do, delivering a rich digital media experience that fits right in your hand.

A Stunning Display

Your apps, games and videos come to life in super-high resolution thanks to the brilliant and bright IPS panel display technology. The 1024x768 resolution screen provides a crisp and clear image in full, true-to-life color that responds to your touch. The capacitive multi-touch display supports advanced multi-touch gestures for navigation, gaming, or just surfing the web. A wide viewing angle makes it easier to watch and even share with friends comfortably in any environment. There's no better way to enjoy your favorite multimedia content in all of its beauty.

Portable Performance

Engineered to provide the ultimate experience available in a sleek, slim package, ViewPad 10e includes a powerful 1 GHz processor to run your apps faster. Multitask and switch between apps with ease. The smooth and responsive ViewPad® 10e makes mobility fun with a user friendly design and more than five hours of battery life* for video playback.
