

CDP4237-L-S

Key Features

Product Description

Product Description

The ViewSonic® CDP4237-L commercial display features Full HD 1920x1080p IPS panel technology, fast 120Hz response, and 50,000:1 dynamic contrast ratio. Slim ID design, combined with 27.6mm bezel width makes the CDP4237-L an ideal large screen solution for your digital signage application. Additional features include versatile inputs – HDMI, DVI, VGA, YPbPr and built-in media player utilizing USB storage. Other key features include up to 5x5 tiling for video walls and VGA and DVI loop through support.
