Product Description

*** This product has been replaced by [VA2703](#).**

The ViewSonic® VA2702w is a 27" big screen LCD monitor with Full HD 1080p resolution which means you can use it for your Blu-ray™ movies as well as your spreadsheets. With wide viewing angles, 60,000:1 dynamic contrast ratio, DVI/VGA dual inputs, and VESA mount option, the VA2702w offers crystal clear images and flexible set up. The display's large viewing area greatly enhances productivity when a user works on large spreadsheets or uses multiple applications. With ViewSonic's 3-year limited warranty, one of the industry's best pixel performance policy, and energy saving Eco-mode, the VA2702w LCD monitor is a great value for offices, homes and schools.
