

VMA20B

Key Features

Windows MultiPoint Server 2011 Standard License

Product Description

The ViewSonic® MultiClient™ LAN Adapter allows up to 14 users to share a single computer server for a cost effective, easy-to-manage, private cloud computing environment. Set-up is quick and easy with the Plug-and-Play LAN installation supporting Gigabit Ethernet. Users enjoy a complete multimedia experience with headphone, microphone, and VGA output for resolutions up to 1280x1024 (or 1440x900 widescreen.) Adapter also includes Type A USB connections for mouse and keyboard, power jack, Ethernet port and Kensington® security slot.

- Build your own local or wide cloud environment
- RJ45 Ethernet ; Connect up to 14 users per server
- Multimedia experience with headphone and microphone
- Virtually eliminates support, updates and maintenance
- Compact VESA mountable form factor mounts to monitor
- Fanless design for quiet operation
