

CDP4737-L

Key Features

47in. Full HD display with 120Hz featuring LED Technology

Product Description

****This product has been replaced by [New Product.](#)***

The ViewSonic® CDP4737-L commercial display features Full HD 1920x1080p IPS panel technology, fast 120Hz response time and 50,000:1 dynamic contrast ratio. Slim ID design, combined with 28mm bezel width makes the CDP4737-L an ideal large screen solution for your digital signage application. Additional features include versatile inputs - HDMI, DVI, VGA, YPbPr and built-in media player utilizing USB storage. Other key features include up to 5x5 tiling for video walls and VGA and DVI loop through support.
