SW-014

Key **Features**

- Industry standard architecture
- Deployment flexibility
- Greater simplicity
- Streamlined content management
- Integrated layout tool

Product **Description**

Featuring Userful video wall controller software and a ViewSonic zero client media player, the Professional Video Wall Deployment Solution delivers stunning digital signage at a great price. With an integrated drag-and-drop management tool, the intuitive software allows virtually anyone to configure a video wall with just a smartphone. Content can be easily pushed to multiple displays (1 license per display) in any landscape or portrait grid formation, while color consistency can be calibrated across all displays. Because a standard PC and a standard LAN can be used to deliver the video wall, the amount of specialized knowledge, equipment installers, and support teams is reduced, thereby allowing for low upfront costs, easy set-up, and little to no maintenance. Enjoy 6K video, live TV, real-time camera feeds, full-screen web browser, and more. In addition to video walls, this professional solution can simultaneously support touch screens, desktops, self-serve kiosks, and individual digital signs. Content can be displayed with multiple CMSs, while a built-in playlist makes playback a breeze. By simply plugging in more zero clients, the number of displays on a network can be expanded for bigger impact on a larger scale.

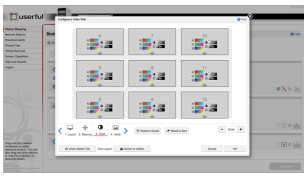

Specifications

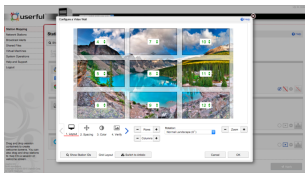

More Information

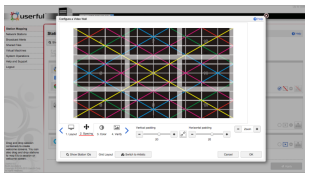

Classification	Discontinued
UPC	766907819618
Physical (in.)	9.0 x 1.6 x 5.9
Physical Without Stand (in.)	4.7 x 0.9 x 3.2
Physical (mm)	230 x 40 x 150
Physical Without Stand (mm)	120 x 22 x 82

Net (kg)	100g
Gross (kg)	250g
Net (lbs)	0.22
Gross (lbs)	0.55
Recycle/Disposal	Please dispose of in accordance with local, state or federal laws.
Regulations	CE, CD LVD/ FCC class B
Package Contents	Power adapter x 1, miniHDMI to HDMI adapter cable x 1, USB-A to DC power adatper x 1, Starting guide x 1
Warranty	One-year limited warranty on parts and labor
