Product **Description**

Engineered to deliver unmatched color accuracy crucial for professional applications, the ViewSonic® VP2768 WQHD monitor displays your work with the vivid and lifelike color it deserves. With a SuperClear® IPS panel and a sleek frameless design, the VP2768 provides a near-seamless viewing experience ideal for multi-monitor setups. For simple, single-cable daisy chaining of multiple monitors, the VP2768 is equipped with future-proof DisplayPort technology, in addition to HDMI. To ensure precise, uniform color, each of our monitors is factory calibrated to deliver an amazing Delta E≤2 value for incredible color accuracy. An integrated color uniformity function ensures consistent chromaticity across the screen, while a 14-bit 3D look-up table generates a stunningly smooth palette of 4.39 trillion colors. Add to that 6-axis color adjustment functionality, and this monitor provides the ultimate color processing capability for professional applications. What's more, an advanced ergonomic design delivers customized comfort for increased productivity. Hardware calibration is also available with the optional ViewSonic Colorbration Kit, which allows you to quickly and easily calibrate the monitor for photography, graphic design, content creation, and other color-critical applications.
