

INTEL UNITE

Key Features

- Smarter Meeting Rooms
 - Secured Infrastructure, Powered by Intel® vPro™ technologies.
 - Easy-to-Use Interface
 - Adapt as Needed with Plugins and SDK
-

Product Description

When combined with ViewSonic® ViewBoard® interactive flat panel displays, the Intel Unite® solution delivers a productive and secure unified communication platform. With Intel Unite®, meetings start quickly and easily: co-workers can simply walk into a conference room and immediately begin to wirelessly share their screen content to the ViewBoard®. Media from any range of devices, such as tablets, laptops, and mobile phones, can be displayed on the ViewBoard® to better facilitate presentations, brainstorming, and decision-making. With Intel Unite®, collaboration is made easy by allowing co-workers to connect and interact with meeting content in real time, from any location where they have a corporate network connection.
