VBH100

Key **Features**

- Group Collaboration
- Multiple Inputs
- Dual Output
- Failsafe Operation

Product **Description**

Designed for group presentations and screen sharing, the ViewSonic ViewBoard® Huddle enables multiple users to broadcast content from their personal devices onto a larger shared display. Users can simply plug their devices into the Huddle via six (6) HDMI inputs, and one (1) USB Type-C input, and begin sharing their screens to a connected ViewSonic® ViewBoard® interactive display, large format display, or projector. Switching from one user screen to the other is as simple as turning the knob on the Huddle, while a separate button activates video and audio recording in an external USB flash drive. What's more, HDBaseT output (connected with Cat6 cable or above for up to 100m) provides convenient long-distance installation for any classroom or meeting room.

Specifications

More Information

UPC	766907001594
