## Product Description

---

The ViewSonic® ELITE XG240R is a 24" Full HD monitor packed with all the speed and features esports and gaming enthusiasts need. Equipped with ViewSonic exclusive RGB lighting technology, ELITE RGB, the XG240R beautifully illuminates gaming setups and synchronizes to other RGB peripherals without any additional software. Featuring an incredible 144Hz refresh rate, as well as AMD FreeSync™ technology, this monitor's variable refresh rate capabilities virtually eliminate screen tearing and stuttering for fluid gameplay during fast-paced action scenes. A blazing-fast 1ms response time and low input lag provides smooth screen performance even in the most graphic-intense sequences. For a game-winning competitive edge, a Game Mode feature optimizes visuals for FPS, RTS and MOBA. On top of that, a customizable 22-level black stabilization function helps you target enemies lurking in the dark, while the monitor maintains brilliantly rich colors and contrast.
