Product Description

The ViewSonic® ViewBoard® S IFP2710 is a 27-inch multi-touch display that transforms classrooms into interactive learning centers. With a responsive and intuitive 10-point touchscreen, the ViewBoard S IFP2710 allows multiple presenters to draw, write, and annotate using fingers, styluses, or both. When connected to a ViewSonic® ViewBoard® interactive display or projector via HDMI or LAN HDBaseT, the IFP2710 serves as a central content sharing and collaboration hub: all content, files, images, and annotations are controlled on the IFP2710 screen, and can be shared and displayed on the larger front-of-classroom display. An advanced ergonomic design allows you to swivel and tilt the display, or lay it flat on the tabletop. With the ViewSonic® IFP2710, classrooms become more engaged, and learning becomes more fun and collaborative.
