VSB050-S

Key **Features**

Product **Description**

The ViewSonic® VSB050 is a WiFi/Bluetooth adapter for the myViewBoard™ Box, CDE5520 and CDE4320. It provides dual-band 2.4GHz and 5GHz WiFi support for a robust and reliable wireless presentation experience. The VSB050 also offers fast Bluetooth 4.2 connection for class1 and class2 power-level transmissions. With the VSB050, users can enjoy quick and easy streaming of multimedia content with no need for wires or cables. Users can wirelessly stream content from their own devices (such as desktop PCs, laptops, tablets, and mobile phones), to the myViewBoard Box connected to any interactive projector, interactive flat panel, or touch monitor.
