

LD-MISC-002 - EXTENDED INSTALLATION CABLE FOR THE LDM231-251 DIRECT VIEW LED DISPLAY

Key Features

- Place your LDM control box up to 32.8 ft. away with this extended cable.
 - Add greater flexibility to your LDM display setup.
-

Product Description

The LD-MISC-002 extended cable helps users enjoy more flexible control box placement with their LDM231-251 All-In-One Direct View LED display. While the system control box can be placed behind the display, the LD-MISC-002 lets users position their control box up to 32.8 ft. away for easier access. Plug in your favorite devices and peripherals without struggling to reach behind your LDM display.
