

# VIEWPAD E100

## 10" Featherweight Android 4.0 Tablet

### Packing a Heavyweight IPS LCD Panel

Experience a splendid colour display and free ranging mobility with ViewSonic's ViewPad E100. The exclusive SuperClear™ IPS technology LCD panel provides a vivid and full-bodied colour performance in a professional quality display. With its 9.1mm slim depth and the latest Google Android™ Ice Cream Sandwich OS, the ViewPad E100 brilliantly redefines user's expectations with compelling performance giving your ViewPad E100 the smart edge and 'gadget on-the-go' flexibility.

#### > 9.1mm ultra-slim design

With only 9.1mm of thickness, the ViewPad E100 has a slim profile that gives real portability. As an on-the-go workstation and multimedia centre, the E100 shows your good taste with an appealing design and style.

#### > 9.7" XGA SuperClear™ IPS panel

Enjoy a crystal clear, wide-viewing experience with the SuperClear™ IPS panel Technology, delivering XGA 1024 x 768 resolution and a premium viewing experience. The SuperClear™ IPS panel technology also reduces light scattering and provides 178° vertical and horizontal viewing angles that make your ViewPad E100 convenient for multiple viewers to watch and share work or entertainment.

#### > Android™ Ice Cream Sandwich platform

The ViewPad E100 comes with the recently released Android™ 4.0 Ice Cream Sandwich OS to provide a smooth operation and unmatched performance. The new interface incorporates virtual buttons, additional apps and widgets, with easy & efficient organization of files. The Android™ Ice Cream Sandwich OS allows users to hold more contact information to further facilitate communication and contact with friends, family and co-workers.

#### > Powerful processor with balanced performance and battery life

With a powerful 1GHz processor delivering a great multimedia experience while maximising portable usage. You'll see and feel the difference with snappy navigation, optimized power management and a longer standby time.

#### > Instant access to popular apps, games, e-books and more...

With the included 1Mobile Market giving access to thousands of free applications and other embedded applications like Dropbox and OfficeSuite, you have easy access to a multitude of functions.

#### > Make a scene with ViewScene™ 3D interface

ViewSonic's exclusive ViewScene™ 3D takes tablet technology to the next level with advanced visual effects, an intuitive home screen and options to completely configure and personalize your experience.

#### > Optimal network hub with multiple connectivity

With Wi-Fi, Bluetooth, 3G Data connectivity\* and GPS\* functions, the ViewPad E100 allows data transmission and Internet access free of limitations. The mini HDMI port supports 1080p output with up to 32MB expanded storage through the micro SD card slot with micro USB port for further expansion and peripheral connection.
