

7" High-Performance Colour LCD Signature Pad

PD0711

- Implemented antimicrobial technology on pen and housing
- High Performance and e-Signature precision with 2048 pen pressure
- USB connectivity for more flexible use
- Ergonomic design, VESA-compliance, and Kensington lock security
- Windows® compatible and support e-Signature software
- 8H tempered glass with anti-scratch, anti-glare, and anti-fingerprint

ViewSonic PD0711 is an ideal solution for institutions interested in adapting paperless transaction management at a great value, featuring a high resolution LCD screen with full encryption capabilities and the option to run full-colour advertisement while device is not in use. It is ideal for institution where in-person handwritten electronic signature are required to confirm digital transactions such as bank teller desk, telecom center, currency exchange center, hotel check- in or government sectors.

A verified 99.9% antimicrobial solution

A verified 99.9 % antibacterial solution have been tested by SGS. Antibacterial technology implemented across all aspects of our product line including the pen, housing. *Option by request

A superior and intuitive handwriting experience

ViewSonic pen display delivers intuitive and accurate handwriting with 2048 levels of pen pressure sensitivity. The 250 pps response rate produces written text and highlighting on the screen without delays.

2048 Levels
of Pen Pressure

Battery-free Pen

Outstanding durability surface

Constructed with an edge-to-edge 8H protective glass faceplate, the ViewSonic pen display is anti-scratch, anti-glare, and anti-fingerprint coating, delivering a durable and reliable user touch experience for e-signature solution in public usages.

One-Cable solution

With an integrated USB port to connect to a PC or laptop for data transmission, managing and storing your information is fast, easy and secure. USB cable supports sufficient power supply and ensures stable data transmission, providing simple customer-oriented solutions for everyday use.

Ergonomic design

The PD0711 comes with ergonomic , 0° - 7° stand tilt adjustments to accommodate placement on low and high counters or other surfaces.

Secured Encryption

Each signature signed on the pen display undergoes a hardware and software based encryption. All data is protected according to RSA2048 & AES256, the highest industry standards. *Option by request

Support for virtualized environment

ViewSonic pen display offers several options for virtualized, remote desktop, Citrix, VMWare,

and RDS and thin client / zero client environments.

Technical Specifications

LCD PANEL	Display Area	152.21 x 85.92 mm (7" TFT LCD)
