

Enhance Workplace Communication

With Manager's Comprehensive Remote Broadcasting Solution

To enhance workplace communication, Manager offers a web-based, centralised remote device management platform that integrates seamlessly with ViewSonic ViewBoards, presentation displays, and ViewBoard Box paired devices. This unlocks new opportunities for office engagement by making it easy to broadcast company-wide announcements, share important project timelines across departments, and relay live event updates throughout the workplace. Ultimately, it streamlines communication at work through centralised device management.

Communicate Efficiently

Multimedia Broadcast

Capture attention and elevate office announcements with Multimedia Broadcasts. It integrates photos, videos, audio, webpages, and live streams into a variety of multimedia templates, empowering you to instantly push or schedule media for network displays.

Playlist Creation

Create curated multimedia playlists, stored on the Manager platform, for seamless broadcasting across office devices. The looping feature ensures uninterrupted playback, making it a hassle-free solution for office communications, events, and entertainment.

CAP Integration

Enhance the safety of your workplace with swift, automated delivery of emergency notifications. Whether it's severe weather warnings or safety alerts, CAP integration offers detailed information on severity, location, and recommended actions during crises.
